

KIP 800 | COLOR SERIES

Designed for technical, graphic and office document users

INTRODUCING KIP 800 COLOR SERIES

the new line of color print systems

Explore the new KIP 800 Color Series. Offering the same compact design and function as the KIP 70 Series, now with color. The KIP 800 Color Series saves serious time and money – making ultra high-quality wide format printing more cost effective than ever before. Printing is faster. Operation is simpler. Finishing is automatic. Reliability keeps you up and running. Image quality will keep your customers coming back for more.

Operational Speeds

-  2,880 square feet per hour (268 square meters)
-  2,880 square feet per hour (268 square meters)

COLOR SERIES LINE UP :

KIP 850

Multi-touch color print system

KIP 860

Multi-function color system

KIP 870

Multi-touch production color print system

KIP 880 890

Multi-function production color system

KIP 800 COLOR SERIES

features designed for effortless operation

- Color and Black & White Print Production
- Integrated Folding, Finishing & Stacking Systems
- Automatic Roll Trimming
- Quick Switch Technology
- Integrated USB Port for External Drives
- Production at Remarkable Print & Scan Speeds
- Media Load Assist
- Extended Print Lengths for Maximum Productivity
- Automatic Image Calibration for Precise Color Output
- Technical Document and Display Graphic Creation
- Large Capacity Toner Cartridges for Continuous Print Runs and Productivity

System K Software

The KIP 800 Color Series increases productivity while simplifying the user experience with touch tablet navigation, diverse software suite with ribbon command bars and system standardized icons, along with cloud integration.

Large Capacity Toner

Each CMYK cartridge contains 1,000 gsm of toner for a total capacity of 4,000 gsm - allowing longer uninterrupted color and black & white print runs for continuous system productivity.

Automatic Calibration

An exclusive single belt drive system performs automatic calibrations for precise imaging and bold, expressive color output. This simplifies changing media types.

Extended Print Lengths

The KIP 800 Color Series handles long print images on a variety of media types from either of its 2 or 4 integrated roll decks for maximum productivity and operator efficiency.

Quick Switch Technology

The KIP 800 Color Series print technology eliminates roll switching delays for increased productivity. Two or 4 media rolls and a sheet feeder deliver mixed print sizes at full production speed.

Color and B&W Printing

The KIP 800 Series color and black & white LED production printing systems are based on a unique design that lowers the operational costs and quickly switches between color and black & white production.

Media Load Assist

An ergonomic roll cap system simplifies the process of loading the 3,000 or 6,000 square foot / 278 or 557 square meters media capacity.

Production Printing

The KIP 800 Color Series print systems offer superb resolution at remarkable print speeds of up to 2,880 square feet or 268 square meters per hour, in either color or black & white.
